

Frame bridge OLDA 71 KPF

Installation:

OLDA 71 KPF is fitted in the edges of the frame and door leaf. Each fixing plate is mounted using two countersunk 3.5 x 16 mm screws on each side, i.e. four in total.

Specification:

- Fixing plates:
 - width: 22 mm
 - height: 53 mm
 - thickness: 2 mm
 - depth: 18 mm
- Material:
 - steel
 - zinc
- Coating:
 - electro zinc plating

Service:

Function tests are recommended once or twice a year. Test and clean as needed.

Warranty:

All mechanical "OLDA" branded products have a 36-month factory warranty.

Function:

Concealed cable connection between frame and door leaf.

Features:

Frame bridge OLDA 71 KPF has a discreet and easy installation thanks to the fact that you only need to drill holes for the fixing plates in the frame and door leaf. Return spring and cable lock are included.

Manufactured in steel, fixing plates in die-cast zinc.

Usage:

Fits both left and right hinged doors, for cables with diameter up to 6 mm.

Mainly intended for inner doors.
